**1:30PM TO 4:45PM via [Zoom](#)**

Customer complaint handling skills are among the most valuable skill sets for any employee who deals with customers. The manner in which your employees deal with customers or clients is a huge factor in your ability to retain those business relationships. Good customer complaint handling translates directly to your bottom line - happy customers will remain and return.

When a proper and effective complaint handling mechanism is in place, you will positively enhance your interaction with customers or clients. In addition, you will also have a positive impact on the morale of your employees.

This two-session webinar training aims to instill the art of customer complaint handling and to build customer loyalty to your business. This Best Practices training program is aligned with ISO 10002 series of 2018 on Quality Management and Customer Satisfaction Guidelines in Handling Complaints in Organizations.
