THE NEXT LEVEL IN ESG & SUSTAINABILITY

GOING BEYOND

Compliance and Reporting

FRIDAY, DECEMBER 6, 2024 * 1:30 PM TO 4:45 PM VIA **zoom**

In this era of purpose-driven organizations, compliance alone is not enough. Sustainability and ESG (Environmental, Social and Governance) are no longer done in isolation but are already a core part of how an organization should respond to challenges, risks, and opportunities affecting its value creation.

In this three-hour webinar, we will share the best practices and techniques of how the board, top management, key officers and stewards of all organizations -- of all sizes and across all industries, including the public sector -- can build the concept of sustainability, weave it into its strategy and business portfolio, and embed it in the organization's DNA.

By participating in this program, you will not only gain the knowledge to drive sustainability and ESG initiatives within your organization but also the confidence to be a catalyst for positive change. Together we will navigate the landscape of international frameworks and evolving reporting standards and regulations.

Sustainability and ESG transcend organizational size, industry, and sector boundaries. Whether you are from the private or public sector, this program is for you. Register now!
